

Super Immune™

Improved Formula

New and improved formulation

Protect yourself. Every day you are exposed to the elements. A healthy defense system fortifies your cells against ongoing attacks. Super Immune is now stronger than ever with the addition of two new ingredients, Cat's Claw (*Uncaria tomentosa*) and Eleuthero (Siberian Ginseng). Cat's Claw has an array of immune-strengthening effects that will further reinforce your immune system against the ravages of everyday life. Eleuthero helps individuals cope with physical and emotional stresses and aids in protecting cells from damage due to environmental conditions.*

In addition to Genoderma (Reishi mushroom), this formulation also includes increased potency levels of Astragalus and Schisandra chinensis - traditional immune-enhancing Chinese herbs with historical and scientific data validating their effectiveness - to boost and support your body's natural immune system.*

- ▶ Supports and strengthens the immune system*
