

Xperia® Concentrate

Renewal restored. The number of oxidative hits to DNA per cell per day is estimated to be about 10,000, and people have approximately 100 trillion cells in their body. To alter these degenerative effects you must fortify yourself with the proper protection. Xperia® is an all-natural full-spectrum cell renewal formula that will provide your cells the proper nutrients to combat the ravaging effects of free radicals.

Xperia is loaded with the antioxidant protection of up to 10 servings of fruits and vegetables. It also is scientifically formulated with Protectin™, a compound which has been shown in human clinical trials to improve joint comfort and flexibility. Moreover, Xperia contains critical bioenergetics for increased energy and stress-relief compounds for relaxation. For further cellular protection, Coenzyme Q10 has been added to Xperia; benefits of which range from heart health to energy production to immune support.

Xperia is an all-natural formulation with Stevia and sweetened with agave nectar, and concentrates of apple and white grape juice.

- ▶ Promotes vital energy*
- ▶ Supports mental clarity and focus*
- ▶ Helps manage stress*
- ▶ Promotes joint comfort and flexibility*
